BOY SCOUTS AS CITY HEADS

An increasing number of cities are at a title, and the solitaire board folding hands with acouting's work for above in Fig. 1 presents just such a cilizenship training and are paying the scouts a tribute accorded to no preceding generation of boys, namely, city governments for brief periods are being placed in the hands of the scouts with full instructions as to how the affalcs of state are conducted, a sort of sublattlation into civic responsibility.

Among the cities that have recently paid their acouts this compliment are: Chicago: Lancaster, Pa.; Franklin, Pa.; Oll City, Pr.: Chester, Pa.; Superior, Wis.; Galvesion, Tex.; Des Moines, Is.; Alexandria, Is., and Seattle,

"When a scout does his best, something happens," reports a Seattle paper, "Judging from the results of the brief rule of the city which our young citizens enjoyed."

## AGRICULTURAL BILLS PASSED BY CONGRESS

Co-operative Marketing Legalized and Intermediate Credit Is Granted Farmer.

Legalization of co-operative marketing, granting of intermediate credit and raising of the farm loan limit from \$10,000 to \$25,000 were the three great agricultural legislative triumphs of the Sixty-seventh congress. These were the three farm bureau bills.

The farm bills actively supported before the Sixty-seventh congress and which are now laws briefly summarize as follows: Provided intermediate farm credit. affording the farmer a new channel

for credit running from six months to three years commensurate with his production and marketing methods. Increased the amount individuals

may borrow on farm mortgages through the co-operative federal farm loan banks from \$10,000 to \$25,000. Placed the ment packing industry

under federal aupervision, making it possible to ascertain the status of the ment packing and stockyards activi-

Placed a tax on trading in grain futures, supervised the grain exchanges and legalized membership of co-operatives in grain exchanges.

Legalized co-operative marketing, making it possible for farmers' cooperative organizations to do business. thus relieving the constant shadow of the court which menaced all cooperative marketing activities.

Furnished a farm-to-market highway program and appropriated funds to be used during the next three years. Increased the working capital of the federal farm loan system, making Balley. In winning the grand cham-It possible to float bond issues more

Limited immigration to 3 per cent of the foreign-born recorded in the 1910 census and barring hundreds of thousands of undestrable allens.

Prohibited the manufacture and sale of filled wilk, thus protecting the dairy industry to the extent of many millions of dollars annually.

Created an 80 per cent fat standard for butter. Appropriated money for extension of credit to farmers in the Northwest

who have had crop fallures, and dedoing crop fallures. Strengthened the warehouse act by making it apply to all agricultural products, making warehouse receipts

more useful to banking channels. Placed representative of sgriculture along with industry, commerce and finance on the federal reservé beard. Herrested the War Plasare corpo-

SCOUTS LEARN LEADERSHIP

Scouting is often called a school of leadership, because it teaches a boy resourcefulness, self-confidence and in-"I itiative.

This training is showing itself prominently in the field of school work, where scouts in many sections of the country are winning high honors.

When the names of this years Rhodes scholars were announced, that is, the 32 college boys selected from ceased; petition that Charles G. Blake all over the United States to receive or some other sulfable person be ap- a scholarship to attend Oxford university as representatives of this country, because of their high character, intelligence and all-around physical excellence, the Boy-Scouts of America wrote to these students and asked, "Have you been a scout?" because they are just the type that scouting alms to develop.

Out of those replying, one-half said they had been scouts, and the other half, with one exception, said they rewithout giving bond presented by said gretted deeply not having been able to join the movement. "Representatives of the movement are seldom missing among the honor graduates," concludes the Eagle, "and this year from scouling's ranks comes the highest honor student."

SCOUTS SAVE MOTHER'S LIFE

Ask a scout who, through his knowledge of first ald, has saved his mother's life, if scout training counts.

At their home in Des Moines, Ia., on scout sons, Kenner and Charles, heard n sharp criting out from the bathroom upstairs. Mr. Boreman and his sons rushed to answer the call and found Mrs. Roreman, while standing in the water, had grasped the heater. A comniefe circuit had been established, and before the heavy voltage of electricity had passed through her body, rendering her unconscious, she had been at le

LEGION MAN IS AN AUTHOR

Rainbow Bright" is From the Pen of Lawrence Stewart of Des Moines; Alse an-Artist.

A "buck private" during the World war, Lawrence O. Stewart, American Legion member of Des Moines, is now obtaining recognition as a writer, painter and sculptor.

Stewart is the author of "Rainbow Bright," an informal history of the Forty-second division, with which he served in France as a private in the sanitary detachment of the One Hundred and Sixty-eighth infantry. Illustrations for the book are leaves torn from the sketch book which Stowart carried in his gas mask. They were prepared oftentimes under fire. A preface for the book has been written by Col. E. R. Bennett, who commanded the One Hundred and Sixty-eighth infantry in action.

Forced by the most fiendish of circumstances into a marriage that was distasteful and full of terror for her. Deborah Meredith chose, instead of living with brutal Bob Meager, to trust her life to the perils of the desert.

From the midst of treachery and outlawry appeared a hand of doubtful character, but which she was forced to seize as a guide, Then followed in rapid succession a number of adventures with startling sequences, arriving at a climax so pleasing the reader experiences a pang of regret that the tale is not longer.

"That is just the point. That license was procured without my consent or knowledge. I repudlate it; I refuse to assent to it in any way. I have never agreed to marry Bob Meager. I am here now under threat, and I appeal to you for protection."

"My dear young woman," he began hoarsely, "I was told before coming here that you were somewhat temperamental, and might therefore desire not to proceed with the ceremony. I shall not be swored in any way by such fantrums. "You mean to force me to marry you?" she asked, her own temper rising to combat his.

"Sure," he replied brutally. "I never supposed you'd do anything else but kick. But that's none of Carrity's business."

"But such a marriage will not be legal; no court would ever sustain it." He laughed coarsely, his eyes staring insultingly into her own.

"Legal! Courts! You make me tired. This sin't Chicago! We're out here in an Arizona desert, and I don't remember ever caring a d-n what the intr says, since I was a kid. The drunker oaths behind spurred her on, strengthened her resolve. She ran, never glancing back, struight to the eatrance sought, flung it open and sprang within, slamming the door shut behind her and feeling desperately for the key. It was not in the lock, nor could she find it lying or " durk floor beneath. Drunk as Menger was he had thought of that; had seen to it that the way to her apartment would be left unguarded. The girl turned, her heart heating rapidly, and crossed to

the bureau. Thank God! he had not discovered the gun, and she swung definntly about, the weapon gripped in her hand.

#### CHAPTER Y

The Blow in the Dark. Deborah, the revolver held tightly n her fingers, moved sliently back into the darkest corner of the room, and crouched there listening. If those men entered that door she meant to shoot, and shoot to kill. This one deadly purpose was all she was conscious of,

or cared for. Perhaps in some vague way, Meager may have realized her desperation. He knew nothing of her being armed, yet, even in his drunkenness, had learned something of her temper, and healtated to face her immediately. Why should he run the risk? He airendy had attained his principal object; they were married, and he could wait until her anger subsided somewhat before asserting his legal rights. Monumbile the boys were waiting for their drinks, and he felt more inclined to celebrate the victory along with them and let tomorrow take care of itself.

Some faint conception of this situation occurred to her, as she crouched there in the dark watchfully walting, yet remained undisturbed. The tension relaxed, and she felt again her womanly weakness, her questioning and despair. She laid the revolver boside her on the floor and buckled the belt with its load of cartridges about her walst; then picked the weapon up once again and rested it on her knee. She was no longer crazed, but able to think clearly and decide what to attempt next.

Menger's action could mean but one thing-his utter confidence that she was already securely in his power. She could not escape, she would be waiting there for him when he was rendy to possess her. What difference did an hour make; she was his wife; when he was drunk enough, reckless enough, he would come to claim her. Well, let him come; she would continue to wait, and he should have his welcome. His wife! She might be his widew before dawn.

She did not move for a long, long time; did not take her eyes from the closed door, or release her grip on the revolver. She felt cold, tireless, netuated only by a relentless hatred. She wished he would come so that it might be over with. But nothing happened, and little by little, her mood changed. The strain tegan to tell. beran to break down her resolution. left her doubtful and atraid. She ventured to open the door a alight crack and peep cautiously out into the hall; it was descried, not even a guard had been stationed there, but the door at the farther end, leading into the living room, had been left open, and she could hear the men in there making merry. It was a babel of voices at firsts then someone began to sing a ribald song in English, and at the first line she drew back, shutting out the bateful sound with a feeling of supreme disgust. Trembling from head to foot, she crossed to the window and looked out

Into the root mists of the night. No guard had been posted here either. Evidently she had been left perfectly free to go or come as she pleased, yet she fully understood how limited that freedom was. She night fies from the house, but that was all; the borders of the ranch were still her prison walls, the efficient grand those sand deserts stretching in every direction, tractices and impressible on foot, rast, materiess tragges, where she would perich misseally. A light still burned in the bankbause, but the huiding memed deserted. Once two men passed down the bill, leaning beavily open each other, staggering and singing, disappearing finally through the open door. His was still staring after them, when a sound from behind anddenly caused her to face about. A fambling hand was lifting the fron latch; the door was being pressed open with an effort at allence. Motionless, breathless with apprehension, the girl watched the entering beam of light breaden until lish Meager stood awaying in the doorway, ciniching at the kneb to steady blusself. He did not see her at tirm, his bloodshot even blindly searching the apartment; then he must have perceived her colling against the window, for he lurched forward, giving vent to an exclamation of relief.

SYNOPSIS

CHAPTER I.—On the isolated Meager ranch, on the southern border. Deborate Mersdith, trained nurse, is in attendance on Mrs. Meager, whose husband has recently been killed, victim of an accident. Immediately after the death, liob Meager, Mrs. Meager's stepson, arrives and takes possession. Its insults Deborat and she resolves to leave, but there seems no possibility of her getting away, alone.

The men of the home ranch were ecidently at supper, the blg dialnghall being lighted, and, as she slipped rast the unshaded windows, she had climpse of the fellows within and heard their voices conversing loudly in Spanish. They were a mostey bunch, scarcely a face down the long table that was not vicious and depraved—the scum of Mexico, the majority exhibiting Indian blood. They were a precious gang of ruffians, indeed, worthy of their master, and the girl crept away, glad to escape the sound of their voices. There was a single dim light borning in the bunkhouse, but no sign of any occupant. Undoubtedly every hand on the place was at support and no better opportunity could be found in which to seek for and appropriate some forgotten wenpon. She advanced cautlously, listening intently for any sound, eager to accomplish her object. Once armed, sire would feel more confident; the very touch of a weapon in her hand

would bring her renewed courage, The bunkhouse was a long building of adobe, the bunks lining the walls. open at both ends, the only light a lantern swung from a center beam. The glass of this was blackened with smoke, and only a dim radiance made the interior barely visible. However, there were no occupants. Without hesitation, but with heart beating wildly, she slipped silently within, her eager eyes awiftly searching the vacant bunks and the wooden pegs above, on which dangled a miscellanecus collection of garments. She advanced gingerly, satisfied that if any

She was upon her feet, standing, motionless and ricid, back beyond view, when the little party rode up to the main door of the ranch house, which opened at their appreach, a startling beam of

light flashing within. There were but three in the company, all men. Two of the faces she could not distinguish at all, one's rather trim figure, sitting his enddle like a cavalry man; the other a humping, decidedly ungainly fellow, topped with a broad Mexican sombrero which completely shaded his features. These two remained mounted, but the third man swang tostently down from the saddle, noislly greeting Menger as he stepped into the open doorway.
